

Thank you for listing your property with <u>Hostelgalaxy.com</u>! We are delighted to welcome you to our world-wide and rapidly growing base of hotels, hostels, B&Bs and other accommodations.

HostelGalaxy.com is a next-generation and rapidly growing OTA set up to provide both the traveler and the accommodation provider the software tools and flexible booking options they have long desired - leading to happier guests and happier accommodation providers.

Not only are accommodation providers able to offer the normal nightly-basis booking options but they can also offer add-on bookable supplements (breakfast, ski/bike hire etc.) and are also able to set up special all-inclusive package offers. Whereas the normal nightly-basis options are great for most hotels and hostels, the *"special offers"* feature is perfect for ski chalets, villas and holiday homes/apartments etc., wishing to rent units as a whole for specific date ranges. Accommodation providers can also set up check in/out hours that guests cannot book outwith.

Founded by fellow travelers with years of back packing experience and years of experience working directly in hotels and hostels, HostelGalaxy.com was created to provide both the accommodation provider and traveler a great and affordable alternative to the handful of big corporation-owned booking sites that have controlled the market for the last decade and have - by charging extremely exaggerated commissions and fees - made the cost of running accommodations unaffordable for many accommodation providers - forcing them to either go out of business or hugely increase their prices to cover these overinflated commission costs.

At HostelGalaxy.com the accommodation provider never pays more than 10% commission and this is paid by the guest at the time of booking as a *booking deposit* and the remaining 90% is paid upon arrival at the accommodation (or in accordance with the payment conditions stipulated by the accommodation provider in the "*Property Terms & Conditions*" section of the "*property set up*").

Whether you are running a hotel, hostel, B&B, ski chalet, villa, holiday home/apartment - and whether it's on a nightly or package basis - you are welcome at HostelGalaxy.com. We give you (the accommodation provider) the online control to offer guests a tailor-made experience through a flexible and individualized range of online booking options never before brought together in one OTA.

# Listing your property

#### Step 1.

Simply go to https://www.hostelgalaxy.com and click on "List Your Property" link at the top of the website (just below the URL).

After clicking on "List Your Property" you will be directed to the page where you add a few basic set up details. After adding the details simply click on "Register" (see image below) and then we will email you a username and password to access the interface and set up your property details and photos.

### Step 3.

Once the rooms/units have been configured you can then add availability through either of the Hostelgalaxy.com calendars.

Our **Long-Range Update Calendar** literally allows you to set up both rates and availability etc., for an entire season in less than a minute.

We also now have a **Separate Long-Range Calendar** where you can change "either or" options - just price, just availability etc.

Then the short term view **\_Short-Range Calendar** where you can adjust rates and rooms day by day. This option is also great to have an overview of the rates and availability already added by the other calendars.

### **Myallocator Interface:**

\*When you are a *Cloudbeds/Myallocator* client you can skip our calendars by simply mapping your Hostelgalaxy.com rooms through Myallocator and then you can update you prices, availability and minimum nights through the Myallocator interface. You will need to add your property ID to Myallocator when adding us as a channel. Your Hostelgalaxy.com ID can be found on your main property profile dashboard as shown in the image below (inside the green rectangle image):

We take security very serious at Hostelgalaxy.com. To provide an extra layer of security for the guest's card details you will receive an automatic booking email with only the last 4 digits of the credit/debit card. In order to obtain the first 12 digits of the customer's card details you have to click on the **Bookings** link and open the booking in the secure interface and then press "**decode**" to see the rest of the card details.

# **Guest Opinions**

To see guest opinions and comments about their stay at your property simply click on the **Opinions** link on the left side of the dashboard (see image below).
